# COLOR AMPULE

---

Version 1.1

## Short description

---

Vibrant translucent and opaque colors  
Colors 3D-Basics Resin

## Description

---

COLOR AMPULE is a color System for Resin from 3D-basics. It can color the natural resin into a wide variety of translucent and opaque colors. Like other Resins from 3D-basics it is developed and produced in Austria with high quality raw material and produced under the highest quality standards.

## Application

### for coloring Resin

1. Shake the COLOR AMPULE well for 15-20 seconds
2. Pour the COLOR AMPULE content into the Resin bottle then close bottle securely
3. Shake the Resin firmly for 15-20 seconds
4. Leave the resin for 5 minutes to eliminate air bubbles formed during shaking
5. Shake dyed Resin well before each further use
