

HP Pro 3300 Microtower Business PC

Productive and stylish, inside and out, this sleek microtower features PC technology businesses require.

HP recommends Windows® 7.

HP Pro 3300 Series Microtower Business PC is newly re-designed and powerful enough to handle all your workplace computing tasks with the flexibility to allow your PC to grow with you in the future. You get a full-function, great looking PC with a heritage of quality and reliability.

Newly redesigned

With its sleek, minimalist, industrial design this PC is sophistication personified. The HP Pro 3300 Series has a clean look that will stay current for years to come. The redesign wasn't just about looks, but includes configurability and convenience as well. You get a stylish and powerful workhorse ready to meet your needs now and grow with your business later. It boasts 2nd generation Intel® Core™ i3, i5, and i7 processors¹ for the latest in performance. Designed to fit typical business workspaces, the Microtower includes conveniently placed front USB 2.0 ports and audio ports. Standard video, network and additional USB ports are available on the rear.

Newest technology

You've got the latest technology to choose from and a flexible Microtower to support the configuration that best fits your business needs. Choose from a range of standard hard drive or optical drive options including the latest SATA Blu-ray Writer Drive^{2,3}. Standard DDR3 memory is energy efficient as well as expandable to help you save money and work efficiently.

You won't have to compromise when it comes to running your graphics intensive applications. Whether you're editing photos, creating multimedia presentations, or designing web content you'll see enhanced image clarity and detail with integrated Intel Graphics.

Flexible out-of-the-box

The HP Pro 3300 Microtower is ready to configure with extra memory slots, PCI Express (PCIe) slots, and 3.5"/5.25" bays. Choose the genuine Windows® 7* operating system right for your environment. And, with preinstalled software like HP ProtectTools⁴ for Small Business and Norton Antivirus⁵ (trial offer) you get a PC equipped to make an impact right out of the box.

Manage your workspace efficiently with available wireless networking for a neat, cable free existence.^{2,6} The HP Pro 3300 Series fits in your environment with no tabletop cable mess when you add our 802.11 Wi-Fi option.^{2,6} Plug one power cord into the wall and you're ready to go. Add peripherals such as an optional wireless keyboard, mouse without adding clutter.²

More than what is in the box

You get more than what's in the box with our business-focused innovations included in every HP Pro 3300 Series PC that help you increase productivity, mitigate risk, reduce your environmental footprint, and improve your overall computing experience. Plus, the HP Pro 3300 Series offers service and support options, so you can spend your time focusing on what's most important—your business.

HP Pro 3300 Small Form Factor Business PC

HP recommends Windows® 7.

HP Pro 3300 Microtower Business PC

HP recommends Windows® 7.

*System may require upgraded and/or separately purchased hardware and/or a DVD drive to install the Windows 7 software and take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details. Replace disclaimer with current version:

Not all features are in all editions of Windows 7. Systems may require upgraded and/or separately purchased hardware to take full advantage of Windows 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details

1. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Dual Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.
2. Sold separately or as an optional feature. Availability varies by region.
3. Blu-Ray is a new format containing new technologies; certain disc, digital connection, compatibility and/or performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require a DVI or HDMI digital connection and your display may require HDCP support. HD-DVD movies cannot be played on this Desktop PC. Don't copy copyright-protected materials.
4. HP ProtectTools requires Microsoft Windows.
5. 60 day trial period. Internet access required to receive updates. First update included. Subscription required for updates thereafter. This software is licensed to you by the manufacturer under the terms of its end user license agreement.
6. Wireless access point and Internet service sold separately.
7. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.
8. For hard drives, GB = 1 billion bytes; 1 TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16 GB (for Windows 7) of disk space is reserved for the system recovery software.
9. Don't copy copyright-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.
10. High definition content required.
11. Service levels and response times for HP Care Packs may vary depending on geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
