

GasterON – Symbio

GasterON SYMBIO Probiotics and Prebiotics (fiber) Complex of probiotic bacteria with fiber

Loose mixture of active substances

Strengthening and stabilization of the intestinal microflora in acute and chronic diarrhea, during treatment with antibiotics, deworming, vaccination, after injuries and operations, during stress.

The product contains a combination of 4 probiotic strains and prebiotics in the form of fructooligosaccharides, which have a known mutual synergistic effect. In this way, the positive properties of the contained substances are combined for the natural balance of the digestive and immune systems.

Probiotics are contained in the product in the amount of 1.5 billion in a combination of *Bacillus coagulans*, *Lactobacillus acidophilus*, *Lactobacillus plantarum* and *Lactobacillus rhamnosus*.

Prebiotics are represented in the form of fructooligosaccharides FOS. Fructooligosaccharides GOFOS™ is a water-soluble fiber that nourishes and supports the growth of beneficial intestinal bacteria.

Ingredients: a mixture of probiotic strains (*Lactobacillus acidophilus*, *Lactobacillus plantarum*, *Lactobacillus rhamnosus*, *Bacillus coagulans*), FOS_fructooligosaccharides (sugar beet fiber), silicon dioxide (drying agent)

Recommended dosage:

small and medium breeds of dogs up to 20 kg 1 scoop per day

medium and large dog breeds 20-40 kg 1-2 scoops per day

large and giant breeds of dogs 40-60 kg 2 scoops per day

Active folders	in 280 mg (measuring scoop)
4 probiotic strains: <i>Bacillus coagulans</i> <i>Lactobacillus acidophilus</i> <i>Lactobacillus plantarum</i> <i>Lactobacillus rhamnosus</i>	1.5 billion
Fructooligosaccharides FOS	156.6 mg

Instructions for use:

It is best given together with food or mixed in water to support immunity and digestion. Administer in three-month courses with monthly breaks. For acute diarrhea, you can double the dose.

Administer for at least 21 days when using antibiotics or digestive disorders (diarrhea, constipation, flatulence, flatulence). Administer probiotics min. 2 hours before taking antibiotics.

Weight: 28g ± 5%

Method of preservation: Store in a dry, dark place, in the original closed packaging, out of the sight and reach of children.

Marking: Only for animals!

Expiry date: end of the date indicated on the bottom of the can.

The product was manufactured in the Czech Republic.
