

3.5inch IPS HD Display Screen

Built-in smart operation system

3.5

3.5inch HD IPS color screen

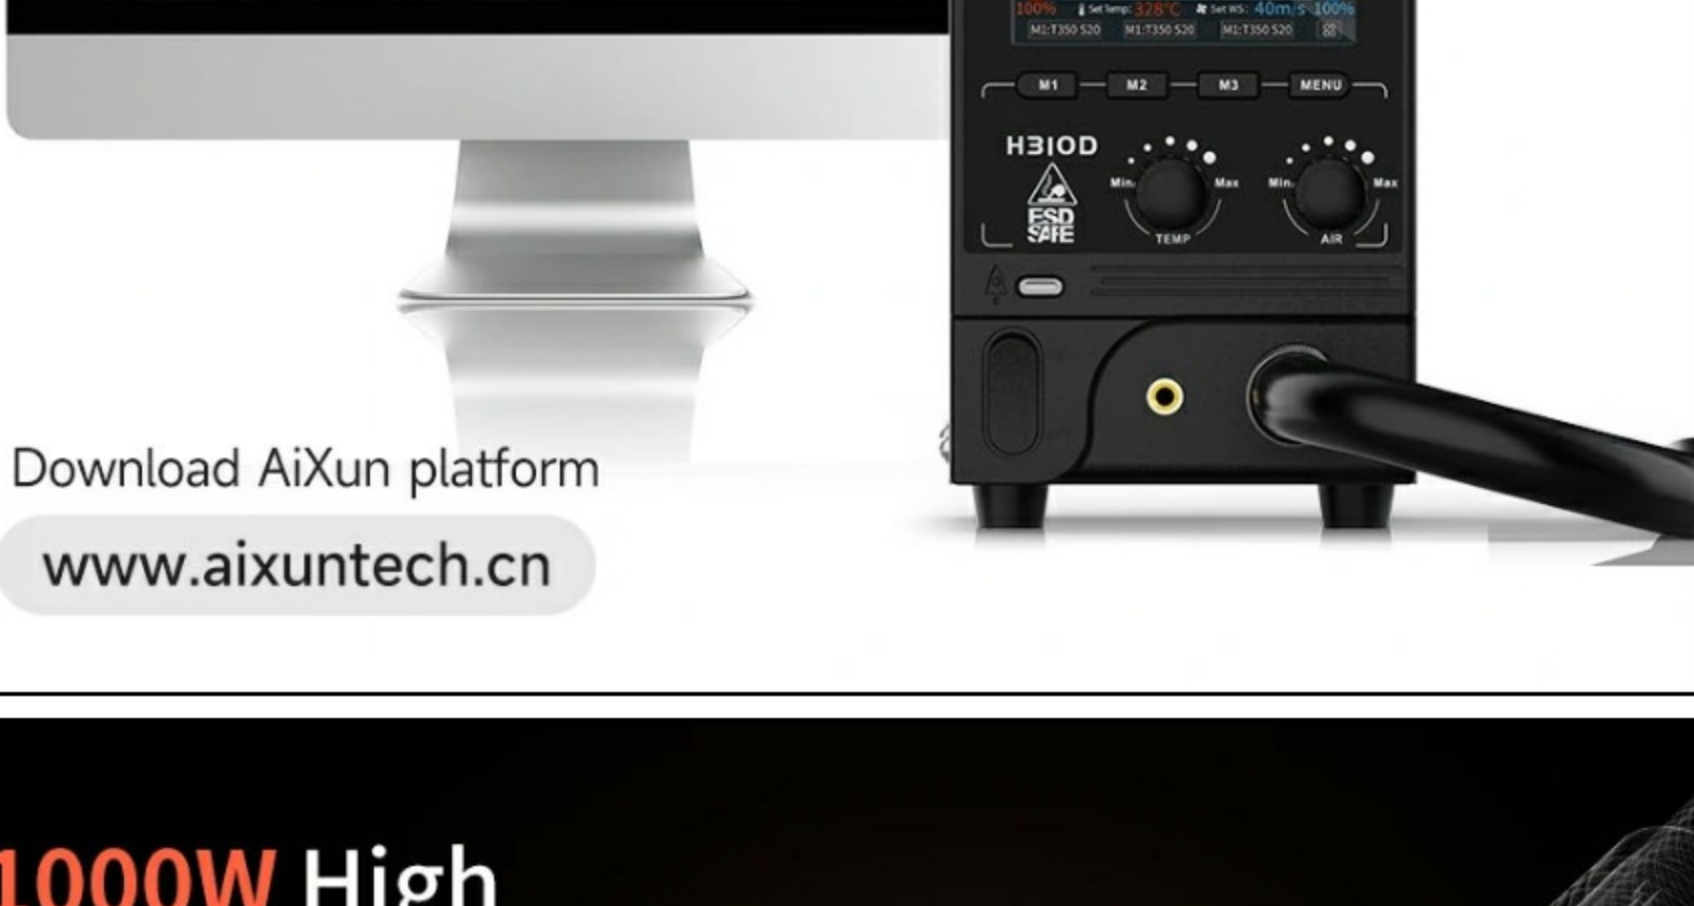

APP

Functional APP updates in real time

OTA Upgrade Through WiFi Networking

Interconnecting through **Bluetooth**, smart joint control design

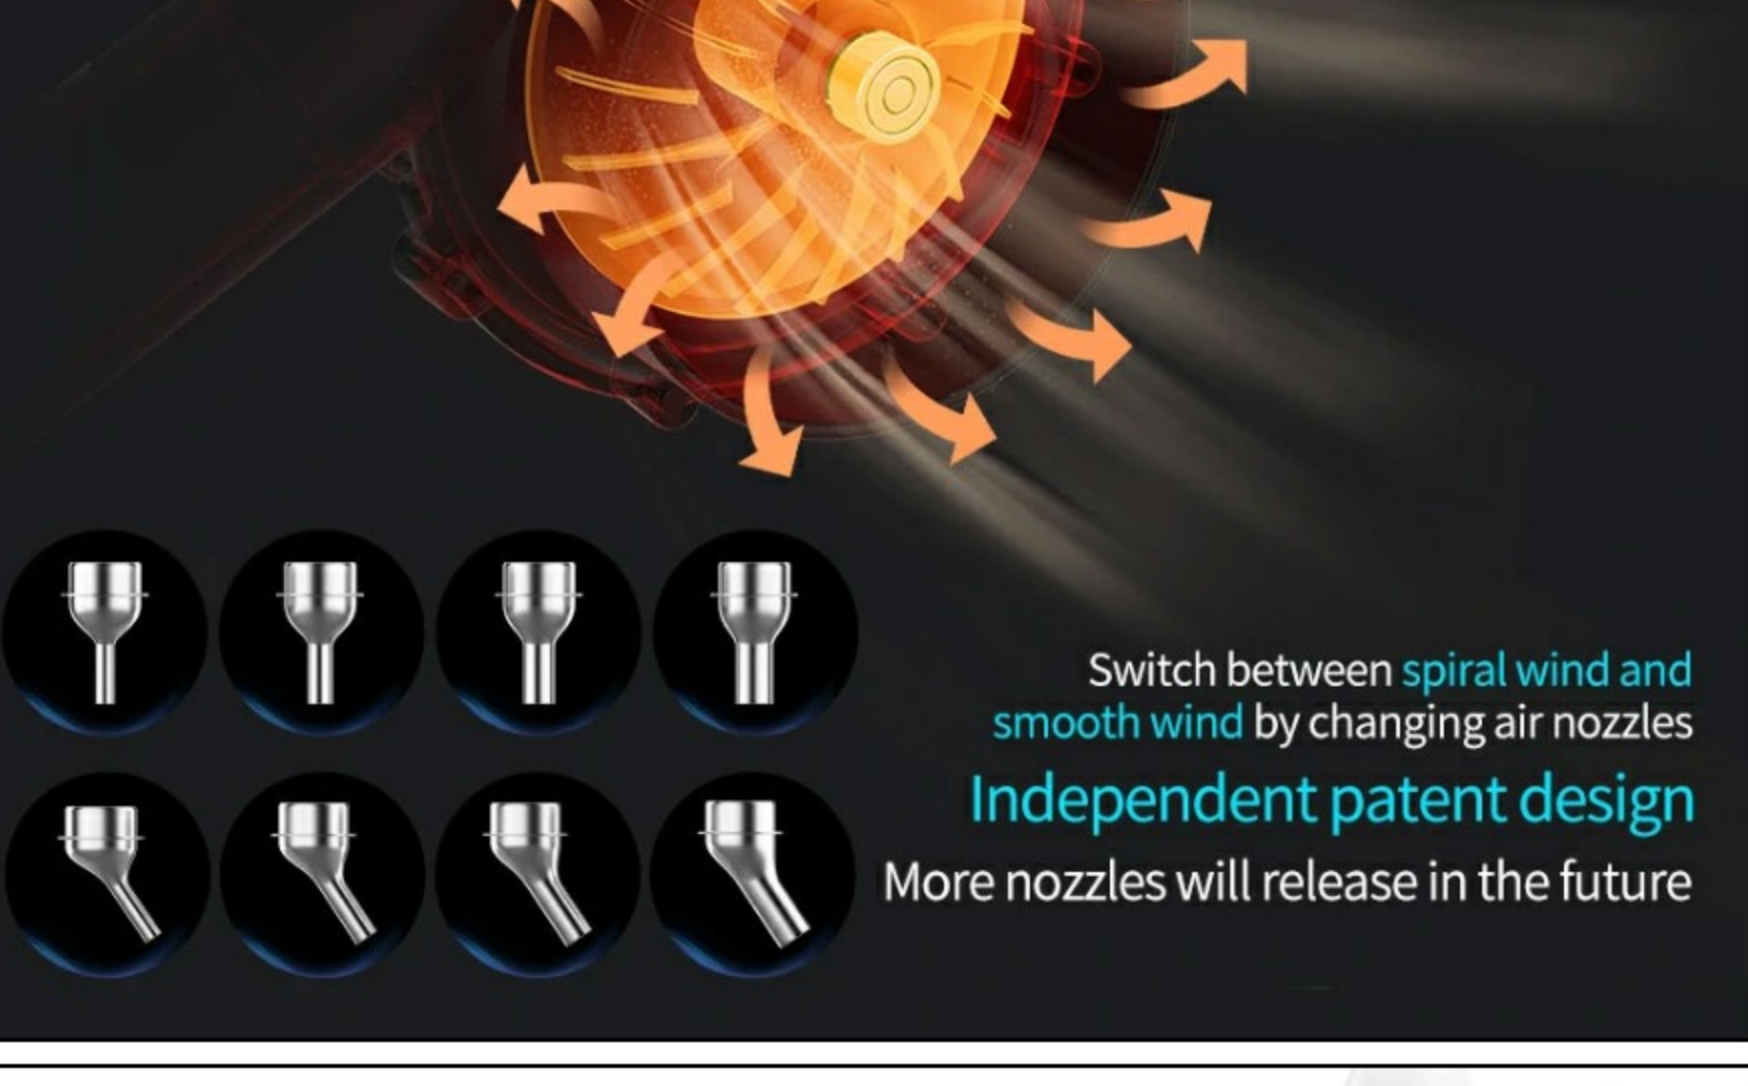

1000W High Power Heating Core

Silent Brushless Turbo Blower

Stronger wind force

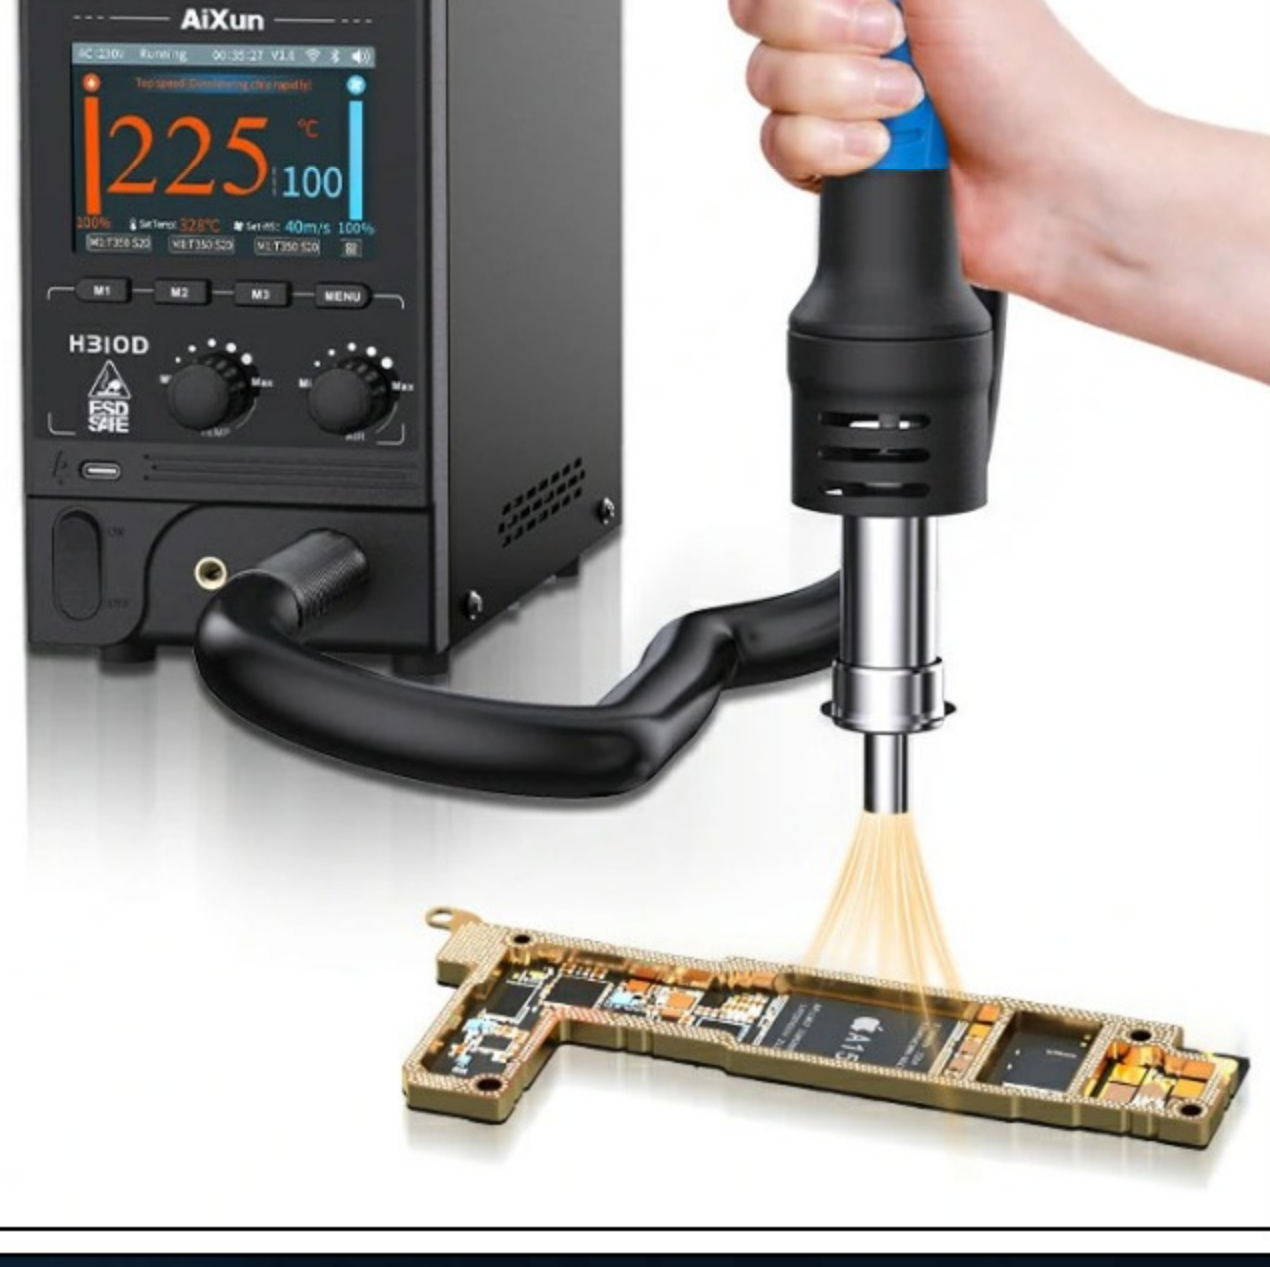

Three Desoldering Modes Switch at will

One key switch the working mode to dismantle chip or plastic connector, the realistic smart desoldering technology

Soft mode
(Connector desoldering)

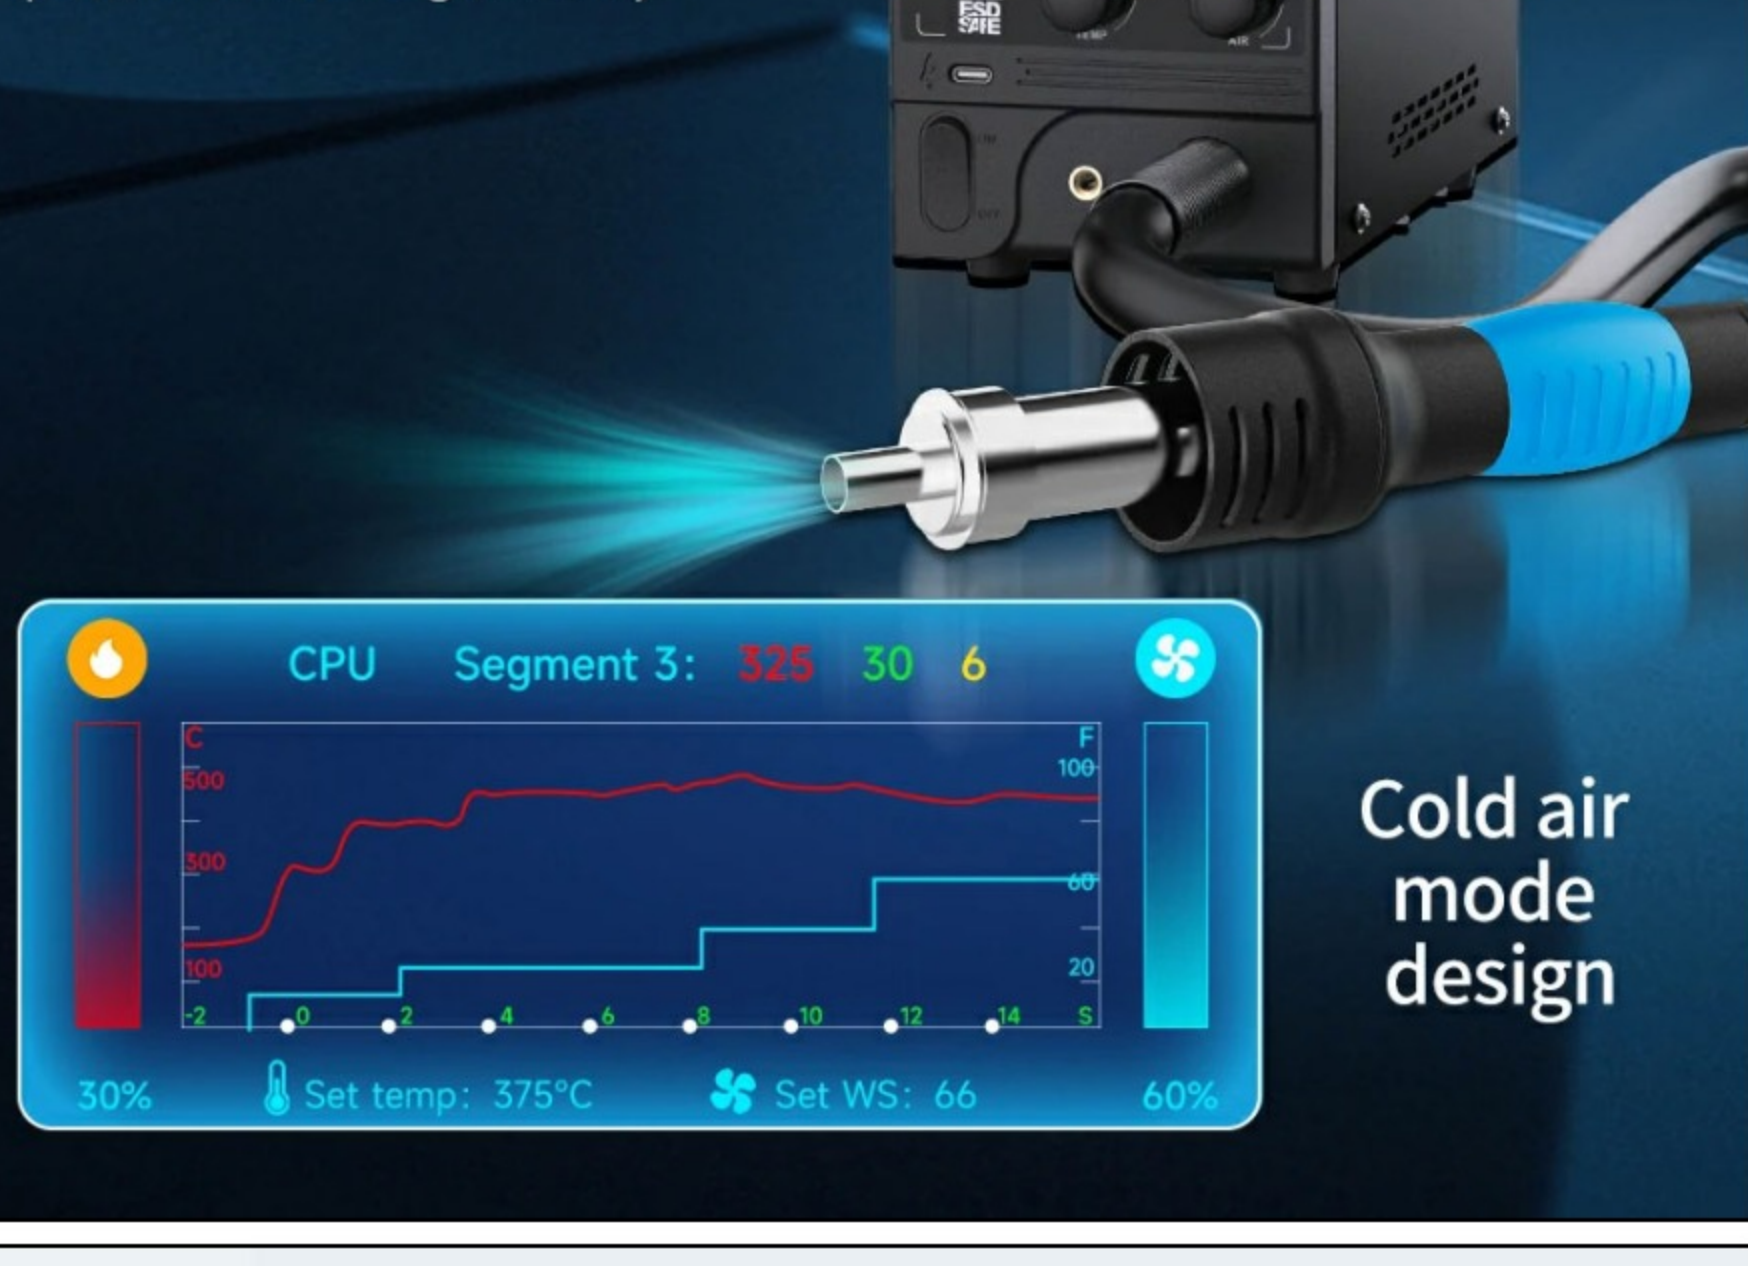

Standard mode
(Normal desoldering)

Top speed mode
(Desoldering chip rapidly)

Dual combination of Segment and Curve Desoldering

Set temperature and wind speed in curve segmentally

Built-in with desoldering parameters of all kinds of chips, update data on Cloud in real time

More parameters are being updated continuously...

Update in real time through WiFi networking

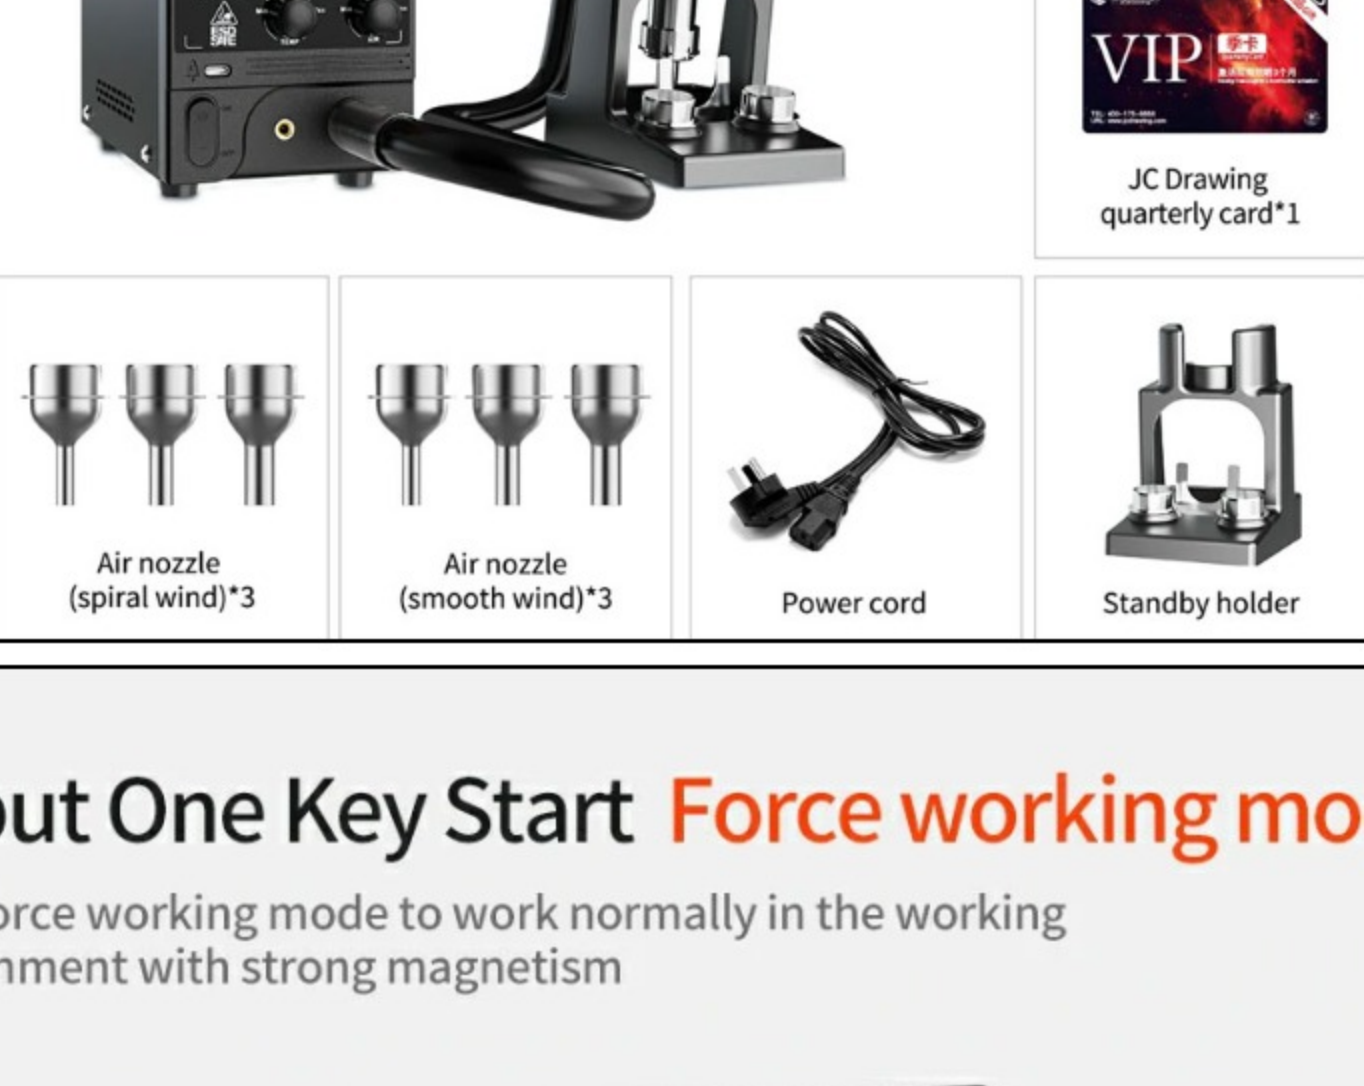

Users can recall, add, revise and save data to build their own exclusive Cloud database.

AIXUN

H310D Hot Air Gun

Host*1 + Air nozzle-smooth wind*3 + Air nozzle-spiral wind*3 + Power cord*1 + Standby holder*1

Debut One Key Start Force working mode

Start force working mode to work normally in the working environment with strong magnetism

Built-in with desoldering parameters of all kinds of chips, update data on Cloud in real time

More parameters are being updated continuously...

Update in real time through WiFi networking

Users can recall, add, revise and save data to build their own exclusive Cloud database.
