# VITAR Veterinae Linseed Oil

VITAR Veterinae Linseed Oil is created from seeds of the linseed plant (*Linum usitatissimum*). The seeds contain mucilage polysaccharides, proteins, tocopherols, lignans and enzymes. An excellent source of energy, the Oil is applicable for active dogs undergoing training, for pets in the winter or those in convalescence, and dramatically improves the quality and shine of the fur.

A product suitable for young animals and lactating females, it helps suppress inflammation or reduce any associated effects, and can also be applied to prevent certain chronic diseases, such as arthritis or diseases of the heart and blood vessels.

Moreover, it is ideal for horses that participate in sporting activities and those prone to muscle stiffness.
