THE HIGH-QUALITY COMPONENTS THEY CONTAIN ARE METICULOUSLY SELECTED FROM AROUND EUROPE. PRODUCED IN EITHER GERMANY OR BELGIUM, THE TEAM AT VITAR THEN HANDLES AND PACKS THEM WITH THE UTMOST CARE, MAKING THEM IDEAL FOR USE BY BREEDERS.

VITAR Veterinae Hemp Oil

This cold-pressed hemp oil is made from the seeds of certain varieties of hemp. With a high content of omega-3 α -linolenic and oleic fatty acids in an optimal ratio of 3:1 to omega-6 linoleic acid, it is rich in such linoleic and linolenic components as well as antioxidants and tocopherols.

The purest sources of omega-3 alpha-linolenic acid comprise flaxseed or flax oil, chia seeds, hemp seeds, walnuts and canola oil, which contain a high volume of omega-3 and omega-6 fatty acids at a positive ratio. Consequently, hemp oil constitutes an important product of plant origin. The presence of a rich, unique combination of such omega-3 and omega-6 unsaturated fatty acids, healthy plant sterols and abundant natural vitamin E mark this VITAR oil out as exceptional and greatly beneficial for the body.

Boasting a pleasant nutty taste, long-term consumption of virgin hemp oil is known to exert a positive effect on physical health.

Content of unsaturated fatty acids:

- Oily 5-20%
- Linoleic 46-65%
- α -linolenic 14-28%
- γ -linolenic max 5%

Method of production

Hemp oil is obtained from the seeds of the hemp plant, which are cold-pressed in a similar manner as that applied for olive oil. Once extracted from the seeds, the hemp oil is stored in a cool, dark environment for subsequent processing and transport.

Health benefits

A notable aspect is an obvious rise in the intake of omega acids. A diet rich in omega-3 and omega-6 fatty acids contributes to the health of the skin and cardiovascular system, maintenance of good blood pressure and reduction in discomfort and inflammation.

The rich, nutritional content of hemp oil:

- Antioxidants, e.g., vitamin E
- Omega-3-6-9 fatty acids
- Carotene
- Chlorophyll
- Calcium
- Sulphur
- Magnesium
- Potassium
- Phosphorus
- Zinc
- Iron

Hemp seed oil is highly nutritious and particularly beneficial for the skin. Containing vitamins and fatty acids, the oil supports its health and fights against skin conditions. Rich in oils and fatty acids, this product is ideal for nourishing the skin and protecting it from inflammation, oxidation, infection and problems such as eczema, dermatitis and psoriasis.

A healthy brain

The fatty acids in the hemp oil may exert a positive influence on cognitive function and brain function, while other compounds in it (e.g., polyphenols) could serve to safeguard the condition of the brain.

Otherwise, consuming hemp oil has other benefits - supporting heart function and helping combat high blood pressure, atherosclerosis and cholesterol levels. The presence of alpha-linolenic fatty acid in hemp oil has been reported as aiding reduction in the risk of cardiovascular disease. Also referred to as linolenic acid, it is additionally present in fish oils and flaxseed oil.

This oil does not contain THC, CBD or other psychotropic substances.

Expiration: 30 months when stored in a cool, dark place.

Recommended dosage:

- Small dog breeds of up to 10 kg 5 ml/day
- Medium and large dog breeds of 10-25 kg 10 ml/day
- Large dog breeds of over 25 kg 15 ml/day
- Cats 2.5-5 ml/day
- Horses 30 ml/day

Available in packs of 1000 ml, 500 ml and 200 ml
